Rusty crayfish

GOLD PACKAGE

30 Minute Public Access AIS Search (100 ft x 200 ft)
Three 10 Minute Target AIS Search (100 ft x 100 ft)
20 Point AIS Meander Survey
Spiny Water Flea/Zebra Mussel Veliger Microscopy Scan
\$1,199 per lake

SILVER PACKAGE

30 Minute Public Access AIS Search (100 ft x 200 ft)
20 Point AIS Meander Survey
Spiny Water Flea/Zebra Mussel Veliger Microscopy Scan
\$799 per lake

BRONZE PACKAGE

20 Point AIS Meander Survey
Spiny Water Flea/Zebra Mussel Veliger Microscopy Scan
\$499 per lake

EXTRAS

30 Minute Public Access AIS Search (100 ft x 200 ft) = \$359 per area
10 Minute Target AIS (100 ft x 100 ft) = \$149 per area

Protocols and methodologies follow Minnesota DNR [Guidance for Conducting Aquatic Species Early Detection and Baseline Monitoring in Lakes](#) published in 2015, which follows Wisconsin DNR program. The publication provides a standardized way for searching lakes to detect early infestations of aquatic invasive species.
